Project Abstract Summary V2.0 — Fill Answers

Applicant: FAIRBANKS MEDICAL CENTRE LIMITED
Opportunity: CDC-RFA-JG-26-0056
Form file: WS01740564-Project_AbstractSummary_2_0-V2.0.pdf
Prepared: 2026-08-11 · Slogan: Your health, our mission.

How to use: Open the blank Project Abstract Summary form and paste each field below. The Project Abstract is public (USAspending) — no personal names, emails, phones, or proprietary detail. Use plain English characters only. Limit: 4,000 characters.

Character count for Project Abstract: 3302 / 4000

Funding Opportunity Number	CDC-RFA-JG-26-0056 <i>Must match SF-424 Box 12.</i>
Assistance Listing Number(s)	93.318 <i>Protecting and Improving Health Globally (CFDA 93.318). May auto-fill from workspace.</i>
Applicant Name	FAIRBANKS MEDICAL CENTRE LIMITED <i>Must match SAM.gov / SF-424 legal name.</i>
Descriptive Title of Applicant's Project	FairBanks strengthens last-mile surveillance across the region for faster outbreak detection and response, using CHWs/VHTs, FCHIP, 7-1-7 timing, surge readiness and contingency capacity. <i>Same public title as SF-424 Box 15.</i>

Project Abstract (paste as one block)

FAIRBANKS MEDICAL CENTRE LIMITED (FairBanks) is a Uganda-registered health organisation that operates a licensed medical centre and FairBanks Community Reach with community health workers (CHWs) and village health teams (VHTs) in Kampala peri-urban communities. Slogan: Your health, our mission. This cooperative agreement under CDC-RFA-JG-26-0056 will strengthen public health capacity to detect, notify, and respond to disease outbreaks closer to where people live, under Ministry of Health (MoH) leadership, so threats are contained at source and Americans and partner communities are safer.

Purpose. Close last-mile gaps in community and facility surveillance that delay early warning. FairBanks will feed structured signals into MoH and National Integrated Surveillance System (NISS) aligned pathways using the FairBanks Community Health Intelligence Platform (FCHIP), rather than creating a parallel data silo. Routine clinical care continues on FairBanks operations and is not the purpose of this award.

Year 1 Component 1 (core Global Health Security, expected initial funding). Activities include: (1) strengthen community and facility surveillance and data quality with CHWs/VHTs and facility teams; (2) improve interoperable reporting so community, facility, and laboratory signals reach districts and MoH faster; (3) practice 7-1-7 style timing from community signal to notification and early response; (4) train and supervise a surge-ready workforce with One Health awareness; (5) tighten community-facility referral links for priority diseases; and (6) coordinate with MoH, district and Kampala Capital City Authority partners, and other CDC partners. Laboratory and selected surge modules will be delivered with MoH-aligned partners. Software, standard operating procedures, and training materials developed under the award will be available to MoH and CDC for appropriate use.

Components 2 to 5. Contingency budgets and work plans for moderate and substantial responses to outbreaks, public health emergencies, and emerging infectious disease threats. These components are intended to be approved but unfunded until CDC activates emergency funding. Total Year 1 federal request across Components 1 to 5 is USD 7,500,000 (Component 1: USD 3,000,000).

Geography. Year 1 primary country is Uganda, with East Africa corridor learning and cross-border signal protocols under MoH Uganda leadership. Additional countries are included only with documented partner letters and registration.

Expected outcomes. Faster detection and response; stronger weekly community and facility reporting; successful MoH/NISS-aligned data export tests; trained CHWs/VHTs and surge rosters; documented referral outcomes for priority flags; and government-usable tools and after-action learning. About 5 to 10 percent of funds support monitoring and evaluation aligned to DGHP indicators agreed with CDC after award.

Beneficiaries. Communities served by FairBanks Community Reach; CHWs/VHTs and frontline workers; district and national public health decision-makers; and, through earlier containment at source, the United States and regional partners. FairBanks is applying as an in-country local partner and will document local-partner preference criteria as required by the notice of funding opportunity.

Checks: form required or application incomplete · match SF-424 title and legal name · no PII · ASCII only · under 4,000 characters · Year 1 total aligns to \$7,500,000.
