

Budget Narrative (Year 1) — All Components

FAIRBANKS MEDICAL CENTRE LIMITED | CDC-RFA-JG-26-0054 | All figures U.S. dollars | Generated 2026-08-09

Attach this PDF to the Grants.gov Budget Narrative Attachments form. CONFIRM final figures before submit. Cost share: none. No research. Routine clinical care not charged to this award.

Summary of Year 1 federal requests

Component	Draft ask	Ceiling	Status
1 Core GHS	\$2,100,000	\$5,000,000	Expected initial funding
2 Small-scale response	\$400,000	\$10,000,000	Contingency
3 Large-scale response	\$500,000	\$15,000,000	Contingency
4 Emerging threats	\$300,000	\$15,000,000	Contingency
TOTAL (SF-424A 4 rows)	\$3,300,000		Equals Box 18a

Indirect costs: foreign organisation rate 8% of MTDC (exclusive of equipment and subawards over \$25,000), unless a negotiated rate applies — CONFIRM method before submit.

Component 1 — Core GHS detailed justification

Category	Amount	Justification
Salaries and wages	\$610,000	Project Director portion; Programme Manager; M&E; Data/FCHIP; CHW supervisors; finance/admin charged to award
Fringe benefits	\$122,000	Statutory and organisational benefits on award-charged staff
Travel	\$75,000	In-country field supervision, district meetings, limited regional workshops
Equipment	\$52,000	Field devices and approved IT — each item justified; furniture generally not allowed
Supplies	\$80,000	Training materials, PPE for drills/sample handling, connectivity, form printing
Contractual	\$670,000	MoH-aligned technical partners for lab/border support modules; software hosting; external audit
Other	\$235,000	Short-term trainers, translation, community meeting costs, evaluation support
Direct subtotal	\$1,844,000	
Indirect (8% MTDC est.)	\$256,000	CONFIRM MTDC base
Component 1 TOTAL	\$2,100,000	Within \$5,000,000 ceiling

Components 2-4 — Contingency narratives (SF-424A dollar rows)

Component 2 (\$400,000): Surge staffing and fringe; rapid travel; emergency supplies/PPE; contractual surge support for investigation/RCCE/data dashboards; other community meeting costs; indirect. Activate only if CDC funds small-scale outbreak/PHE response.

Component 3 (\$500,000): Larger surge staffing; multi-district travel/logistics; expanded supplies; contractual partners for mobilisation and sample referral volume; recovery support; indirect. For large-scale outbreak/PHE response when activated.

Component 4 (\$300,000): Rapid form/tool updates; sentinel intensification staffing; special training; partner lab referral contractual support; travel/supplies; indirect. For emerging infectious disease threats when activated.

Component 5 — Humanitarian emergency (narrative plan; not a fifth SF-424A row)

The NOFO requires a Component 5 humanitarian contingency plan. Because official SF-424A V1.0 / Grants.gov allows only four Section A activity rows, Year 1 federal dollars are entered on Components 1-4 only and total \$3,300,000. Component 5 readiness: community surveillance and RCCE in crisis-affected groups under MoH tasking; surge staffing/travel/supplies; contractual support when CDC activates humanitarian emergency funding under the \$20,000,000 ceiling.

Unallowable costs (we will not charge)

- Research as defined by this NOFO
- Lobbying
- Routine clinical care not allowed by law / not the purpose of the award
- Pre-award costs without written approval
- Budgets in any currency other than U.S. dollars
