

AI for Community Health — Cape Town Summit

Fully funded seat for a young African leader using AI for health impact
Your health, our mission.

FairBanks Community Reach — Health for All — Obulamu eri Bonna · Afya kwa Wote · Oburamu bwa Boona

Item	Detail
Applicant	Eligible FairBanks young leader (18–30), Ugandan national & resident
Programme	Brandtech Group AI for Good Scholarship 2026 (One Young World)
Deadline	2 August 2026
Geography	One Young World Summit 2026 — Cape Town
The ask	Award one of five AI for Good scholarships to a FairBanks young leader.

Official call

1. Executive Summary

Brandtech's AI for Good scholarship sends five young African leaders using AI for social impact to One Young World 2026 in Cape Town. Healthcare is a named priority.

A FairBanks nominee can show responsible AI for community health — CHW data, maternal risk, and outbreak early warning — rooted in Uganda.

The scholarship amplifies an African HealthTech practitioner; FairBanks returns with global alliances for FCHIP.

2. Win-Win Value

FairBanks grows capacity and reach; the programme advances its mission with a grounded African health-tech partner.

2.1 What FairBanks / FCHIP gains

- Fully funded summit access for a young AI-for-health leader
- Global network across One Young World delegates
- Platform to share FCHIP's responsible AI story
- Inspiration and partnerships for product and policy pathways

2.2 What the programme / partners gain

- A scholar with proven community health AI intent, not abstract interest
- Healthcare priority area represented with African field credibility
- Nationality and residency eligibility met (Uganda)
- Alumni who will keep building after the summit lights fade

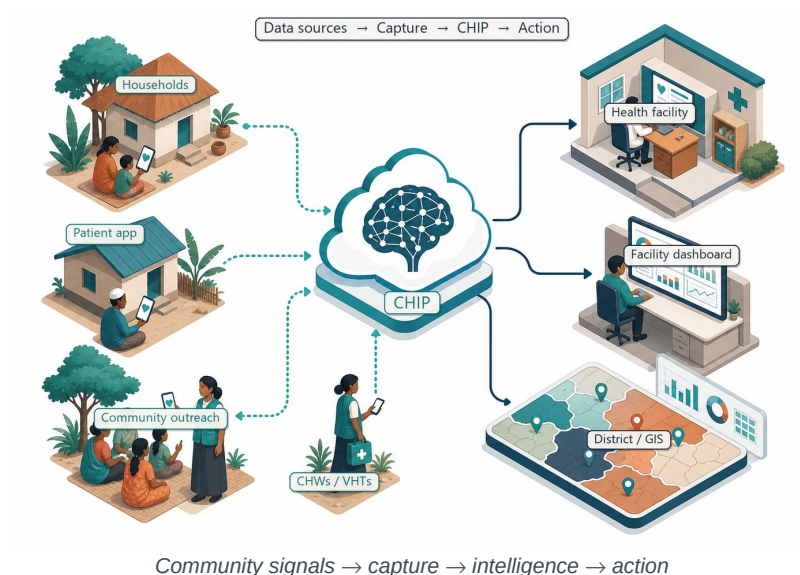

3. The Problem We Address

Reactive care waits for sickness before it responds

AI for good needs builders who already serve communities — not only pitch decks. Too few young African health practitioners get summit access.

4. Our Solution: FCHIP & Community Reach

Our nominee will present FCHIP's approach: community-generated data + predictive analytics for prevention, with ethics and gender awareness at the centre.

Post-summit, learnings feed FairBanks product and partnership plans.

4.1 Deep technology core

Technology	Role
Artificial Intelligence	Outbreak early warning; maternal and NCD risk scoring
Machine Learning	Learn from community patterns, seasons, and outreach outcomes
GIS Mapping	Disease distribution, hotspots, and resource gaps
Mobile Data Collection	Offline-capable CHW/VHT capture at household level
Cloud Computing	Secure sync across facilities and partners
Analytics Dashboards	Real-time views for clinics, districts, and NGOs

4.2 Priority use cases for this call

Responsible AI: Explainable alerts for CHWs and clinicians.

Health for all: Prioritise underserved communities in model design.

Youth leadership: Carry summit commitments into Uganda programmes.

5. Fit to Programme Criteria

Criterion / theme	How we respond
Ages 18–30	Nominee within range
African nationality & residency	Ugandan national living in Uganda
AI for social / health impact	FCHIP predictive community health
Five scholarships	Strong healthcare priority alignment

6. Why FairBanks Is Ready

Live outreach in Kampala-area communities

- Functioning FairBanks Medical Centre with clinic, pharmacy, and diagnostics
- Active Community Reach outreach in Bukoto, Kyebando, Kisaasi, Kamwokya, Kikaaya
- Trusted CHW and VHT relationships for household visits and referrals
- Live programmes: maternal & child health, Gericare, chronic-disease screening
- Digital health records and outreach data ready to feed FCHIP
- Research and partnership mindset for ethical, evidence-based scale

7. Proposed Plan

- Submit nominee profile with AI-for-health evidence and references
- Prepare summit talking points on FCHIP and FairBanks cascade
- Engage Brandtech / OYW sessions on responsible AI
- Publish a public learning note for FairBanks community partners

8. Risks & Safeguards

Risk	Mitigation
Data quality in the field	Structured forms, validation, CHW training and supervision
Low digital literacy	Simple offline UX, local-language support, supervised rollout
Privacy and consent	Ethical governance aligned with Uganda data protection rules
Adoption by partners	Co-design with CHWs, clinics, and district users from day one

9. Closing Ask

From community needs to lasting health impact

AI for Good is measured by lives improved. FairBanks is already walking that path in Uganda.

We ask for a Brandtech AI for Good scholarship for our eligible young leader.

Your health, our mission.
