

Budget Narrative

FAIRBANKS MEDICAL CENTRE LIMITED

CDC-RFA-JG-26-0054 | Year 1 | U.S. dollars

1. Year 1 federal summary

Component	Year 1 federal ask	Ceiling	Status
1 Core GHS priorities	\$2,100,000	\$5,000,000	Expected initial funding
2 Small-scale outbreak / PHE	\$400,000	\$10,000,000	Contingency
3 Large-scale outbreak / PHE	\$500,000	\$15,000,000	Contingency
4 Emerging infectious disease threats	\$300,000	\$15,000,000	Contingency
TOTAL	\$3,300,000		

Year 1 direct costs: \$2,972,000. Year 1 indirect costs: \$328,000. Total federal request: \$3,300,000. No cost sharing is proposed.

2. Indirect costs

FairBanks is a foreign organisation. We apply the standard foreign rate of 8% of Modified Total Direct Costs (MTDC), exclusive of equipment and each subaward portion over \$25,000. Year 1 indirect across Components 1-4 is \$328,000. If a negotiated rate is approved later, we will update the budget accordingly.

3. Future budget periods (Years 2-5)

The project runs for five 12-month budget periods. For Years 2-5 we plan \$2,100,000 per year for Component 1 (Core GHS). Components 2-4 are contingency response lines. We show \$0 for those components in future years until CDC activates emergency funding. Continuation amounts will follow CDC funding decisions and progress.

4. Component 1 - Core GHS

Year 1 total: \$2,100,000. This supports community and facility surveillance linked to MoH and NISS pathways, CHW/VHT and frontline training, faster detect-notify-respond work with districts, and stronger community-facility links for priority diseases under Ministry of Health leadership.

4.1 Personnel

Role	Effort on award	Year 1 amount	Duties
Project Director (Racheal Nabukeera)	Partial	\$90,000	Leadership, MoH and CDC liaison, quality and compliance
Programme Manager - GHS	Full	\$72,000	Work plan, district coordination, reporting
M&E; Officer	Full	\$54,000	Indicators, monitoring plans, quarterly reviews
Data / FCHIP Officer	Full	\$60,000	Mobile data capture, data quality, MoH data exports
CHW/VHT Supervisors (team)	Full	\$144,000	Field supervision, mentoring, weekly reporting
Surveillance / Training Officer	Full	\$66,000	SOPs, drills, training, response timing support
Finance / Grants Admin	Partial	\$60,000	Award accounting, procurement support, audit prep
Field Outreach Coordinators	Full	\$64,000	Community-facility linkage, RCCE support, referrals
Personnel TOTAL		\$610,000	

Amounts are the share of salary charged to this award, not always full organisational salary.

4.2 Fringe benefits

\$122,000 covers about 20% of award-charged personnel for statutory and organisational benefits, including NSSF and related employer costs where applicable. Fringe applies only to salaries charged to this award.

4.3 Travel

\$75,000 covers in-country field supervision in Kampala peri-urban catchments and partner districts, coordination meetings with MoH and district health teams, and limited regional workshops needed for GHS alignment. No international travel is included unless CDC later approves a specific trip.

4.4 Equipment

\$52,000 covers field tablets or phones for CHW/VHT data capture, laptops for data and M&E; staff, and accessories needed for offline sync. Each purchase will include unit cost. Furniture is not charged to the award.

4.5 Supplies

\$80,000 covers training materials, PPE for drills and sample-handling support, connectivity and airtime for field reporting, and printing of SOPs and community education materials. This does not include routine clinical stock.

4.6 Contractual

Contract package	Amount	Purpose
Lab and border technical support modules	\$280,000	MoH-aligned support for laboratory and border health work
FCHIP hosting, security, and interoperability	\$180,000	Secure hosting, backups, and data export support for MoH/NISS pathways
External audit and compliance support	\$60,000	Independent financial review for award accountability
Training facilitation and short courses	\$150,000	Training delivery and One Health awareness modules with partners
Contractual TOTAL	\$670,000	

4.7 Other direct costs

\$235,000 covers short-term trainers, translation and local-language materials, community meeting costs, and programme learning support tied to project delivery.

4.8 Component 1 totals

Category	Amount
Direct subtotal	\$1,844,000
Indirect (8% MTDC)	\$256,000
Component 1 TOTAL	\$2,100,000

5. Component 2 - Small-scale outbreak / PHE response

Year 1 request: \$400,000 (ceiling \$10,000,000). This contingency budget supports a surge roster, community investigation and contact support, risk communication, temporary dashboards, and district incident management support if CDC funds a small-scale outbreak or public health emergency response.

Object class	Amount	Use of funds
Personnel	\$112,000	Surge / surge-ready staffing charged to this component
Fringe Benefits	\$20,000	Statutory and organisational benefits on surge staff
Travel	\$32,000	Rapid field deployment and coordination travel
Equipment	\$12,000	Approved field devices if needed for activation
Supplies	\$48,000	Emergency supplies, PPE, printing, connectivity
Contractual	\$112,000	Surge partners for investigation, RCCE, data, logistics
Construction	\$0	None
Other	\$40,000	Community meetings, short-term trainers, translation
Direct subtotal	\$376,000	
Indirect (8% MTDC)	\$24,000	Foreign organisation rate as for Component 1
Component 2 TOTAL	\$400,000	

6. Component 3 - Large-scale outbreak / PHE response

Year 1 request: \$500,000 (ceiling \$15,000,000). This contingency budget supports expanded surge staffing, multi-district mobilisation under MoH, sample-referral logistics, extended risk communication, and recovery support if CDC funds a large-scale response.

Object class	Amount	Use of funds
Personnel	\$140,000	Surge / surge-ready staffing charged to this component
Fringe Benefits	\$25,000	Statutory and organisational benefits on surge staff
Travel	\$40,000	Rapid field deployment and coordination travel
Equipment	\$15,000	Approved field devices if needed for activation
Supplies	\$60,000	Emergency supplies, PPE, printing, connectivity
Contractual	\$140,000	Surge partners for investigation, RCCE, data, logistics
Construction	\$0	None
Other	\$50,000	Community meetings, short-term trainers, translation
Direct subtotal	\$470,000	
Indirect (8% MTDC)	\$30,000	Foreign organisation rate as for Component 1
Component 3 TOTAL	\$500,000	

7. Component 4 - Emerging infectious disease threats

Year 1 request: \$300,000 (ceiling \$15,000,000). This contingency budget supports rapid form and tool updates, sentinel intensification, partner laboratory referral support, and special training if CDC funds an emerging-threat response.

Object class	Amount	Use of funds
Personnel	\$84,000	Surge / surge-ready staffing charged to this component
Fringe Benefits	\$15,000	Statutory and organisational benefits on surge staff
Travel	\$24,000	Rapid field deployment and coordination travel
Equipment	\$9,000	Approved field devices if needed for activation
Supplies	\$36,000	Emergency supplies, PPE, printing, connectivity
Contractual	\$84,000	Surge partners for investigation, RCCE, data, logistics
Construction	\$0	None

Object class	Amount	Use of funds
Other	\$30,000	Community meetings, short-term trainers, translation
Direct subtotal	\$282,000	
Indirect (8% MTDC)	\$18,000	Foreign organisation rate as for Component 1
Component 4 TOTAL	\$300,000	

8. Component 5 - Humanitarian emergency

We include a humanitarian contingency plan as required by the NOFO. Year 1 federal budget lines on this form total \$3,300,000 across Components 1-4. If CDC activates Component 5 under the \$20,000,000 ceiling, FairBanks will support community surveillance and risk communication in crisis-affected groups under MoH tasking, with surge staffing, travel, supplies, and contractual support to keep essential public health links working.

9. Costs not charged to this award

- Research as defined by this NOFO
- Lobbying
- Routine clinical care that is not the purpose of this award
- Pre-award costs without written approval
- Costs in any currency other than U.S. dollars
